Subject: Feedback on Eastsound Vision

The Eastsound Vision as written is beautiful. I can't think of any modifications. It describes a place so perfect, I don't think it's quite achievable but I'd like to see us strive in any way possible to get there. It will require policies and ordinances that reflect the vision, and most importantly, the equitable enforcement of those policies and ordinances.

Thank you to the many volunteers who worked untold amount of hours to put together the vision statement!
