Subject: Eastsound Subarea Plan Update

I believe it is critical to reconsider the boundaries of the UGA...it is the sole recipient for service industrial uses for Orcas...as we strive to have a well-rounded economy w/ well paying jobs independent of the tourist economy.

The UGA is also the prime recipient of residential development which, in accordance w/ the GMA, should be able to accommodate at least 50% of anticipated residential in the planning period, after taking into account a realistic market factor...it's essential to have an adequate UGA in order to reduce development pressure on the rural landscape.
