Just wanted to thank the council for looking into making permitting on rentals easier. I have personally dealt with the permitting process in the town to make my home multi-family and after that process understood why lack of housing is such a huge crisis. The cost and fees and construction process are more than many would want to go through to add to the long term rental market.

I work with many vacation home owners who would no longer be able to afford a home if it were not for the vacation rental helping them make monthly payments. I am all for home owners doing what is needed to keep their mortgages paid while also adding to the island economy. Myself and my cleaning crew greatly appreciates all the work in dealing with the rentals.

Just a quick email with my 2cents.

Thank you for taking the time to hear each and every one of us locals.
