Dear County Council,

I am extremely worried about the amount of vacation rentals in the San Juan Islands. They are contributing to a loss of community, long term housing, over use of Natural resources and general deteriorated level of quality of life here. I like knowing my neighbors. If you want to have a vacation property, you should live on it and be a full time member of this community. That way you know what your guests are doing and how they are affecting your neighborhood. Thank you for your time and attention in this matter.
