Hello,

There is a huge housing crisis in the islands. There needs to be more affordable housing for people with median income. There is housing for the super wealthy and programs to help people who are very low-low income, but nothing for people who make more than \$30,000+ won't be able to qualify for low-income housing.. more and more islanders are leaving the islands and won't be able to handle the demand of the tourists. Please we need more affordable housing for our workers who run the islands.
