Good morning

I recently became aware of the request from GTB farms for some help from the county to broaden their offerings for the benefit of the members of our community.

Having another place to gather, make new friends and buy products whether grown at the farm or made available by them seems like a great idea to me.

I urge approval of the farms request as I don't see any really good reason to deny their request to enhance their operation and offerings.

We need small farms and opportunities on San Juan island and we need to help support our small business community and their workers.
